

# Bulgarian Erasmus+ Memories of Greece

From 4.11 to 10.11.2018 four students and two teachers from “Hristo Yassenov” Comprehensive School took part in a mobility to the Private High School S. AVGOULEA-LINARDATOU, in Athens, Greece, as partners of the Erasmus Plus project “Getting Equipped for Europe”

## Families

The families were really friendly and kind. They made our stay enjoyable, good fun and unforgettable. We were able to see the traditional Greek lifestyle. In addition, the hosts wanted to know some things about Bulgaria and our families, too. We taught them to say some Bulgarian words and phrases.

## School

Their school was private. Their lessons started at half past seven.. There were 3 places where they could play different sports like football, volleyball and basketball. At the school we presented our interviews and survey results, we had a career counseling session, which was very useful.

## Hosting children

The children were kind, friendly, funny, smart and cool. They were caring and organized. They loved the parties and dancing. Everyone showed their traditional dances and that was fantastic. We learned a lot of them and will never forget them.

## Experiences

What we did there was interesting and exciting. We visited a lot of sights and learned about the amazing history and culture of Greece. The first visit was to the „National Archaeological Museum” in Athens . On the second day we went around the Acropolis, one of the world’s most famous tourist attractions, and the museum dedicated to it . We had a day-trip to the ancient city of Corinth and visited the best-preserved Greek theatre Epidaurus. The programme also included a visit to a Dinosaur museum. That was good fun.

The most important thing was that we met students from five different countries and made new friends.
